

Vida

Imagine. Invest. Impact.

Coming January 1, 2024

Vida and Charis have formed a new mission alliance to expand medical services in Fond du Lac in 2024.

Vida, which currently operates its main medical clinic, support center, and maternity house in Appleton, will expand its medical clinic services to a second medical clinic site (Vida Medical Clinic – Fond du Lac location) at the established Charis building at 207 N. Main St., Fond du Lac. Vida will employ medical staff, manage clinic operations, and deliver medical services at this second location, and Charis will provide the annual funding needed for the delivery of medical services at the Vida Medical Clinic – Fond du Lac location.

Together, we **imagined** how we could best serve women, men, and children in our region. We will be asking the generous Fond du Lac community to **invest** in this new mission alliance. We believe this new mission alliance can maximize the **impact** of life-affirming medical services in this community and serve more individuals in desperate need of our help.

MEDICAL CLINIC SERVICES
